

PRESENTING

AT THE CONFERENCE

If you would like to present your work to a diverse mixture of people, here is the opportunity. Working with the Virginia Floodplain Management Association (VFMA), our Association addresses lakes and watersheds, engineering and life sciences, facilities, maintenance, public works, consulting, academic research, and administration. We serve a variety of people all working to improve Virginia's lakes and watersheds.

Presentations are selected based on abstract summaries of up to one page which will be published in the conference proceedings. Appropriate topics include research and practical applications in stormwater management, watershed management, floodplain management, hydrology, hydraulics, limnology, water quality, biology/ecology, total maximum daily loads, dam safety, dam and lake maintenance, and related water subjects.

Presentations are logically grouped in the program. Upon acceptance, we will contact you concerning your place on the schedule.

To finalize the program earlier and expand opportunities for participation to a wider audience, we will make every effort to keep to the following schedule:

All presenters must register for the conference.

CALL FOR PAPERS

VIRGINIA WATER CONFERENCE 2019

It's time to prepare for the VLWA Conference. The conference will again be held at the **DoubleTree by Hilton Hotel, Richmond-Midlothian** in Richmond, Virginia, where we hosted almost 400 participants at last year's conference!

We expect strong attendance from Federal, State, and local agency employees, lake owners & operators, consultants, product vendors, etc. Technical sessions will be held on March 4th and 5th, and will feature many worthwhile professional papers from every sector of the Virginia and mid-Atlantic water community.
